

Immunology and Respiratory

The
**British Society for Ecological
 Medicine**
 presents
Module Two
 of their two-year
training programme

Place:
Hallam Conference Centre
44 Hallam Street
London W1W 6JJ

(former General Medical Council
 chambers)

Date:
March 2011
Wednesday 9th
Thursday 10th

Our training and accreditation scheme is
 now in its 12th year and starting a new
 cycle;

www.ecomed.org.uk/training

**The training course is now open to
 all health professionals**

Fees

BSEM members GB£240 US\$380

Non-members GB£280 US\$445

We require a non-refundable deposit to
 secure a place.

Please email

christina.winters@googlemail.com

to reserve your place and for all enquiries

Our Scientific Conference

**A tablet a day keeps the patient at
 bay**

**The Health Hazards of Prevention -
 Vaccinations and
 Pharmacoprophylaxis**

follows immediately -

Friday March 11th

Read more at: ecomed.org.uk

Ecological medicine

addresses the interactions between the individual and the environment
 and their health consequences - both the impact of environmental
 factors on the individual, and that of each individual's actions on the
 environment, upon which we all depend.

Read more at;

www.ecomed.org.uk/about-the-society/ecological-medicine

The BSEM promotes the study and good practice of allergy,
 environmental and nutritional medicine for the benefit of the public and
 supports doctors who use the insights of ecological medicine to help
 patients.

MODULE CONTENT

Immunology and Respiratory

The Allergy Detective
 Basic Immunology
 Anaphylaxis
 Autoimmunity
 Allergy vs Sensitivity
 Lectins
 Practical Skin Testing
 Desensitisation
 Nutritional factors
 Genomics
 Detoxification
 Hyperventilation
 Diagnostics
 Ecological factors

FUTURE MODULES in this cycle

Neurological & Musculoskeletal
 Cardiovascular & Gastrointestinal
 Cancer & Endocrine
 Both Ends of Life

**Open to all health professionals
 and to medical students**

Programme

Wednesday 9th March

9.15	Opening remarks	Dr David Freed
9.30	Practical skin testing	Dr David Freed
10.10	The Allergy Detective	Dr Michael Radcliffe
11.00	Refreshment break	
11.30	Basic Immunology	Prof Anne Cunningham
12.10	Anaphylaxis	Dr Andrew Bentley
13.00	Lunch	
14.00	Desensitisation old and new: Enzyme Potentiated Desensitisation & Neutralisation	Drs Len McEwen & Apelles Econs
14.40	Autoimmunity	Prof Anne Cunningham
15.20	Refreshment Break	
15.50	Nutrition, resistance to infection, & how allergy and sensitivity are similar yet different	Margaret Moss
16.30	Q&A and case presentations	Moderator: Dr David Freed
17.00	Close	

Thursday 10th March

9.00	The ecology of respiratory disease. Sick buildings. A safe home. Environmental toxins	Dr Sarah Myhill
10.00	Respiratory physiology, immunology, biochemistry and pathology	Dr Nick Miller
11.00	Refreshment Break	
11.30	Nutritional and dietetic management of respiratory diseases	Margaret Moss
12.15	Q and A	
13.00	Lunch	
14.00	Genomics – Respiratory and immunological determinants	Dr Damien Downing
14.45	What's wrong with conventional drug treatment of asthma?	Dr David Freed
15.30	Refreshment Break	
16.00	Don't overlook hyperventilation!	Dr Len McEwen
16.45	Case studies, Questions, Open forum	Open to all attendees
17.00	Close
